

SULTAN MAGENTA R

- Reactive inks are developed for the common printing technologies used in Kyocera KJ4B printheads.
- Problem-free inks with no nozzle clogging, minimizing the need for printhead maintenance.
- Repeatable printing results.
- High color strength that allow the intended color depth to be achieved with less inkusage.
- Better color and brightness efficiency
- Very good fastness
- It meets ecological requirements. It has a GOTS certificate.
